

SIGPwny and WiCyS @ Illinois Presents

Fall Recruiting CTF 2024

September 22nd, 2024

Hello!

We are excited to invite you to Fall CTF! Our "Capture-the-Flag" event is a one-day **hacking competition** that runs in-person at the University of Illinois Urbana-Champaign. Fall CTF is the **largest cybersecurity event at UIUC** and we attract top cybersecurity talent every year. Running since 2019, our 2023 event has been our most successful so far — over 300 students competed, most being **computer science** and **engineering majors**!

SIGPwny is ACM@UIUC's largest student interest group, with **over 400 registered members**. And starting this year, Fall CTF will also be organized in collaboration with the Women in CyberSecurity chapter at UIUC! We teach **computer security** and emphasize the adversarial mindset, training our members to tackle challenges in designing secure software, hardware, and anything in between.

We are continuing to build and improve Fall CTF: last year we introduced **PCB badges** for hardware hacking and we are continuing to improve their capabilities to better teach students. Along with these badges, we provide prizes, shirts, food, and more at no-cost to participants! However, we can't do this without the support of our sponsors.

Fall CTF is an attractive recruitment opportunity if your company is looking to **fill internship and full-time positions** for software engineers, security researchers, and project managers. We look forward to working with you!

Thank you,
